Education

Jordan University of Science and Technology	Irbid, Jordan	B.Sc. in Software Engineering, 2024

Technical Skills

- **Programming Language**: C#, Java, C++, Python
- **Frameworks**: .NET, React.JS, ASP.NET MVC
- **Operating Systems**: Windows and Linux
- **Databases**: MySQL
- **Tools**: Git, GitHub
- **Additional Skills**: Problem-solving, Unit testing, Version control

Projects

Library Management System

Developed a Library Management System using ASP.NET MVC to manage books, track borrowers, and handle loans. Implemented book/member management, loan processing, and report generation. Integrated database operations, validation, and role-based authentication. Ensured a responsive, secure, and user-friendly interface.

Technologies: C#, ASP.NET MVC, MySQL

Book Store (Bulky)

A modern, user-friendly online bookstore where you can easily browse, purchase, and manage your favorite books.

Technologies: C#, ASP.NET MVC, SQL Server

Activities

Problem Solving:

LeetCode	Solved +350 Problems
CodeForces	Solved 100 Problems
